There is Something We Can Do

# This conference is for you!

This conference aims to assist us in responding liturgically, theologically, and ritually to natural disaster (earthquake, fire, flood, hurricane), all of which are increasingly impinging upon our experience; as well as disasters of human making, such as terrorism and violence.

## **Musicians & Liturgists**

This is a unique opportunity for musicians and liturgists to share and network ideas and resources. Much of our time in plenary and worship will draw upon the musical history and energy we share in the Anglican and Lutheran traditions and beyond.

## **Rural and Urban**

Both rural and urban church communities are vital centres of ministry and mission. This conference has been designed to address the particular needs of both rural and urban churches across our country.
